Varidrive 'COMPACT' LED

The Maxibright Varidrive 'COMPACT' LED is your go-to, budget-friendly fixture for indoor growing. This entry-level powerhouse boasts 720W of power, producing 1920 µmol/s (PPF) for robust plant growth. Its full spectrum light replicates natural sunlight, while dimmable settings cater to every growth stage. Assembly is a breeze, and with a 30,000-hour lifespan, it's built to last.

Connect the Varidrive power pack directly or remotely with a 10m extension lead option. At just 1100 x 1000 x 102mm, it's a space-saving solution for 1.5 x 1.5m areas. Plus, enjoy peace of mind with a 2-year warranty.

Elevate your indoor gardening game with the Varidrive 'COMPACT' LED from Maxibright

Key Features

720W power, 1920 µmol/s total light output (PPF)

6 bar LED fixture, designed for a 1.5 x 1.5m area

2-year warranty

Full spectrum light output for the complete grow cycle

Dimmable: 250W, 400W, 600W, 720W (Boost)

Extendable Bars: LED bars can be removed and used remotely using Varidrive LED extension leads Extension leads (sold separately)

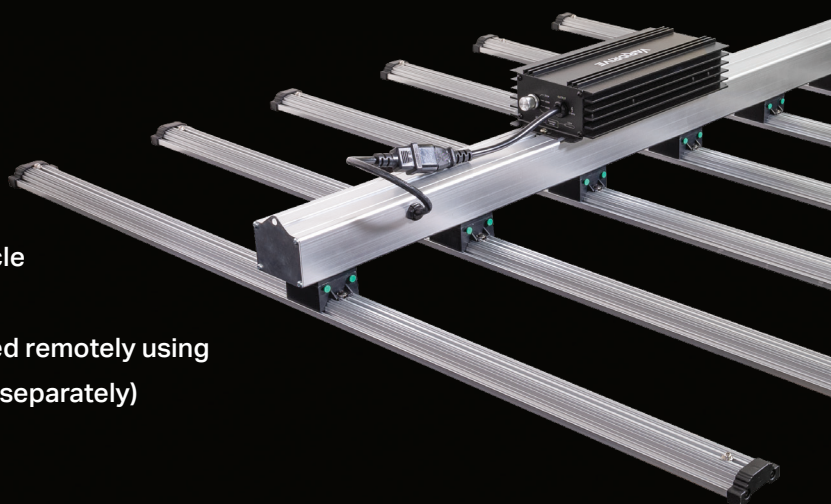

Lightweight, one-person assembly

30'000 hours lifespan

Dimensions: 1100 x 1000 x 102mm

Powered by Varidrive 600W power pack: Sold separately.

Remote or Connect power pack: Choose whether the power pack is inside or outside the grow area. (Extension lead required. Sold separately.)
