

Q240

The Ultimate Growing Powerhouse!

Step into the big league with this awesome square grow tent – 240 centimetres squared. A colossal 5.7 square metres of growing space—perfect for up to four 1000-watt HID air-cooled grow lights or nine 400-watt grow lights. Naturally the HOMEbox® Ambient Q240 comes complete with our exclusive PAR+ optimised smart material helping to create the ultimate indoor growing environment.

The Q240 is complemented by an impressive bank of ventilation ports including twin 250mm (10") air-ports on each side for independent air-cooled reflector ventilation. This affords professional growers the ability to optimise garden temperature without stripping too much relative humidity through over-ventilating the garden itself. Double side access, twin 300mm (12") roof ventilation ports and six Omni-Flow directable air vents give the professional grower all the tools needed in order to create and maintain the most productive and rewarding indoor garden imaginable.

Assembled size: 200 x 240 x 240 cm

Grow space: 5.76 m²

- High-tech German design and engineering
- Rugged, plant-safe materials ensures long working life
- Removable, water-resistant flooring
- Solid base attached to the tent with a zip all the way around
- Double side access
- Inlet and outlet tubes:
 - + 100 mm (4"): 1x right, 1x left, 2x Roof, 2x Back
 - + 200 mm (8"): 1x right, 1x left
 - + 250 mm (10"): 2x right, 2x left
 - + 300 mm (12"): 2x Roof
- 6 x 250mm (10") OmniFlow-Airvents 2x Back, 2x left and 2x right
- 700-micron MicroMesh bug-screen
- Tough canvas outer shell
- PAR+ super reflective lining promotes faster growth and higher yields
- Super strong 22mm diameter tent poles—stronger plastic corners
- Once closed, unit is entirely sealed and virtually lightproof
- Total-Blackout Zippers - no need for Velcro flaps
- Maximum Capacity: 300 kg
