

R80S

Perfect add-on
for cuttings!

It's compact, but powerful! The HOMEbox® Ambient R80S is ideal for generating dozens of cuttings and seedlings in the smallest of spaces. Where ceiling height permits, it can fit snugly on top of an existing grow tent, cleverly utilising the same ventilation system, so that no extra floor space is taken up. Complete with PAR+ super reflective lining and ideally lit with LED or compact fluorescent grow lights, growers can always be well-stocked with rooted, vigorous cuttings for year-round production.

Assembled size: 80 x 60 x 70 cm

Grow space: 0.48 m²

- High-tech German design and engineering
- Rugged, plant-safe materials ensures long working life
- Removable, water-resistant flooring
- Solid base attached to the tent with a zip all the way around
- Inlet and outlet tubes:
 - + 100 mm (4"): 1x Back
